

TEAM PSA

PSA International is a leading port group with a global network of over 160 locations in 42 countries worldwide.

Locally, PSA Singapore is a flagship terminal which operates the world's largest transshipment hub with unrivaled connectivity in container movements across the world.

Here at PSA, we care. We aim to cut our carbon footprint and achieve Net Zero Emissions by 2050.

APPLY

All students are welcome to apply! Students can submit their applications through their school internship portal or PSA's career website.

INTERNSHIP PROGRAMME

YOU CAN MOVE THE WORLD

WHY PSA?

- ✓ Our internships offer you the unique chance to work in a locally grown MNC. Get an exclusive peek into the secret formula that makes us one of the largest in the global maritime and supply chain industry.
- ✓ As a PSA intern, you will take on meaningful and challenging projects, with opportunities to apply classroom learning to real world situations and gain valuable work experience.
- ✓ You will receive dedicated guidance and mentoring throughout your internship, allowing you to gain a better understanding of PSA's business.
- ✓ Interns with good performance can be considered for scholarships or full-time roles.

- HR & Shared Services
- Procurement

HEAR FROM OUR INTERNS

“ I started my internship journey in Year 1 under the NUS Co-op internship programme and secured a PSA scholarship. During my stint, I was exposed to various automation technologies, video analytic software applications and autonomous vehicles. ”

Mok Jia Jun
Tuas Technical Excellence

“ I interned in the Corporate Branding & Commercial Department and my roles ranged from planning events and analyzing data sets to writing internal newsletters. I was challenged and gained insight into the maritime industry. The positive work culture made my stay memorable. ”

Christy Wu
Ship Planning

“ During my internship, I learnt about Cyber Security Operations, their different functions and how they operate. I was exposed to different fields of information security like endpoint security and cloud security. ”

Muhammad Farid
Cybersecurity Operations

“ Interning at the IT Division, I applied software engineering principles taught in school into practical work. I was treated as an equal while being given guidance as I solved real world problems and made positive contributions to the supply chain community. ”

Glenn Tan
Port Community Solutions
