

YOU CAN MOVE THE WORLD

ABOUT PSA

We connect the World

Years of connecting containers for our customers have enabled us to make a science out of managing complexities.

Our Mission

To be a leading supply chain ecosystem orchestrator powered by innovation, technology and sustainable practices

Our Values

Committed to Excellence

We set new standards by innovating in every aspect of our business.

Dedicated to Customers

We help our customers succeed by anticipating their demands and fulfilling their needs.

Focused on People

We win as a team by respecting, nurturing and supporting one another.

Integrated Globally

We build our strength globally by embracing diversity and optimising operations locally.

Responsible Corporate Citizenship

We work sustainably and with the environment in mind, to hand over a better world to future generations

Even amidst the COVID-19 pandemic, our port demonstrated resilience by staying open and providing critical connectivity to the world in troubled times.

TUAS AND THE FUTURE

Phase One of Tuas Port, comprising 21 deep-water berths will handle

**20 million
TEUs
annually**
by 2027.

Tuas Port is integrated into an extensive and well-connected port logistics ecosystem in the Tuas industrial area, designed to handle the mega container vessels of tomorrow.

When fully operational in the 2040s, Tuas Port is expected to be the world's largest fully automated container terminal.

PSA leverages technology and automation to stay ahead of competition, improving efficiency in the global supply chain and logistics ecosystem.

PSA provides holistic container solutions to enable customers to better manage their cargo flows, reducing costs and increasing speed.

We design bespoke supply chain solutions, harnessing a digital network of collaborative platforms and smart technologies for seamless planning and execution.

Sustainability is at the heart of PSA's business ethos and our decarbonisation efforts cover the entire value chain.

With the progressive electrification and automation of equipment and vehicles, Tuas Port showcases the latest climate-friendly technologies, setting the standard for sustainable port operations.

SUSTAINABILITY & SMART TECH

OPERATIONS EXECUTIVE

Working at the heart of our container terminals, Operations Executives are responsible for the planning, execution and monitoring of container-handling operations to ensure that PSA delivers seamless service to our customers round the clock.

“

Running ship operations is fun and challenging. I get to strategise my daily mission and deal with the exception along the way. Everyday is a different ball game.

”

Muhamad Nur Azhar
Operations Executive

OPERATIONS

REQUIREMENTS

- Degree in any discipline*
- Strong leadership, communication and interpersonal skills*
- Results oriented personality who thrives working in a dynamic environment*

SCHOLARSHIPS & INTERNSHIPS

PSA Undergraduate Scholarship (UGS)

Make a difference and contribute towards our vision of orchestrating the global supply chain through PSA UGS. Focusing on Engineering, Infocomm Technology & Terminal Business roles, the UGS provides internship opportunities, networking sessions with PSA leaders, exclusive invites to corporate events and a lump sum grant to cover tuition and other miscellaneous fees.

Internships @ PSA

PSA's Internship programme offers rewarding and challenging experiences working alongside the best professionals in the industry. We provide opportunities to apply classroom learning to real world situations, enabling interns to better understand business operations at PSA. Our interns can be considered for employment upon graduation.

PSA Junior S.E.A.L Programme

The PSA Junior S.E.A.L programme is a premier internship for aspiring IT talents to gain exposure to PSA's core business and ICT operations.

This includes attachments to core business units and rotations across four IT pillars - Agile Development, Cyber Security, Data Analytics and IT infrastructure.

Opportunities for networking with senior management and mentoring by experienced managers will help Junior S.E.A.L interns build industry connections and gain valuable insights.

WORKPLACE CULTURE

An empowered workforce is one of the key ingredients of business success, and we believe strongly in fostering a good workplace culture.

Our ethos and work ethics are strongly guided by the FISH!* Philosophy. This philosophy is based on four key concepts: Play, Make Their Day, Be There, and Choose Your Attitude.

At PSA, this common language forms the basis of a great workplace focused on bond-building, camaraderie, teamwork, excellent customer service and encouraging staff to take on an

engaged and positive attitude at work.

We also offer a comprehensive suite of benefits tailored to the needs of our employees and their families.

**For further information on the FISH! Philosophy, you may go to <https://www.fishphilosophy.com/fish-philosophy-story/>*
